CHAPTER 1: PREVENTION AND EARLY INTERVENTION

OUTCOME STATEMENT: CHILDREN AND FAMILY WILL HAVE TIMELY ACCESS TO THE SERVICES AND SUPPORT THEY NEED.

Goal Statement: Build infrastructure to support at-risk families;

- Primary Prevention – Targeted to general population, aimed at educating the public about child abuse and neglect, with the goal of stopping abuse before it happens.
- Secondary Prevention – Targeted to individual or families in which maltreatment is more likely
- Tertiary Prevention – Targeted toward families in which abuse has already occurred

Safely Decrease the Number of State Wards

Strengths/Opportunities:

May 2015: Reduction of 1,440 wards since January 2013.

* We have seen a 35% decrease in state wards since 2012.

Goal Statement: CFS will have a timely response to reports of child abuse and neglect reports and conduct quality safety and risk assessments.

Intake Calls/Responses

Strengths/Opportunities:

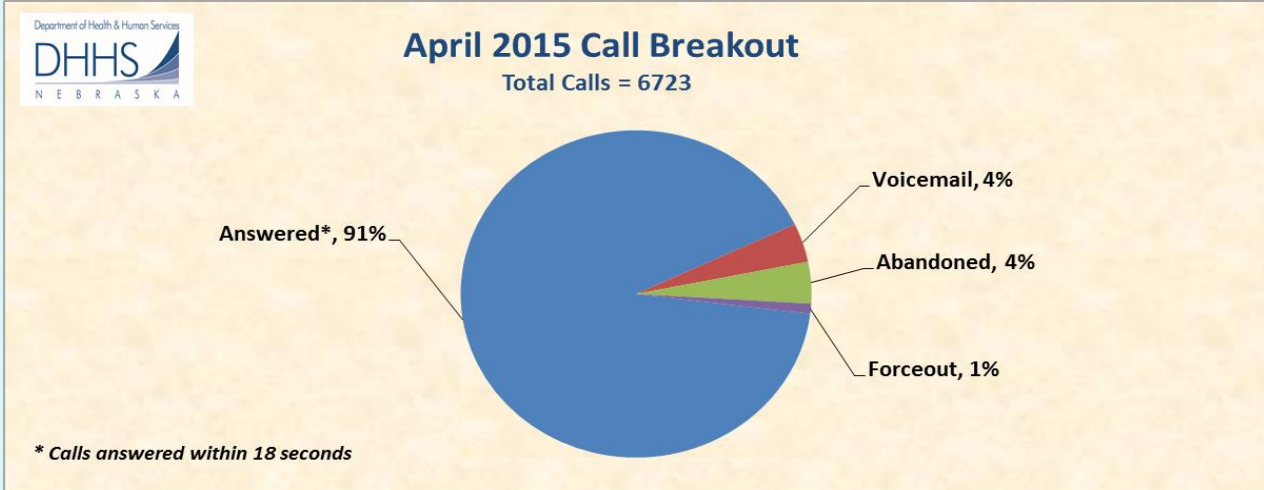

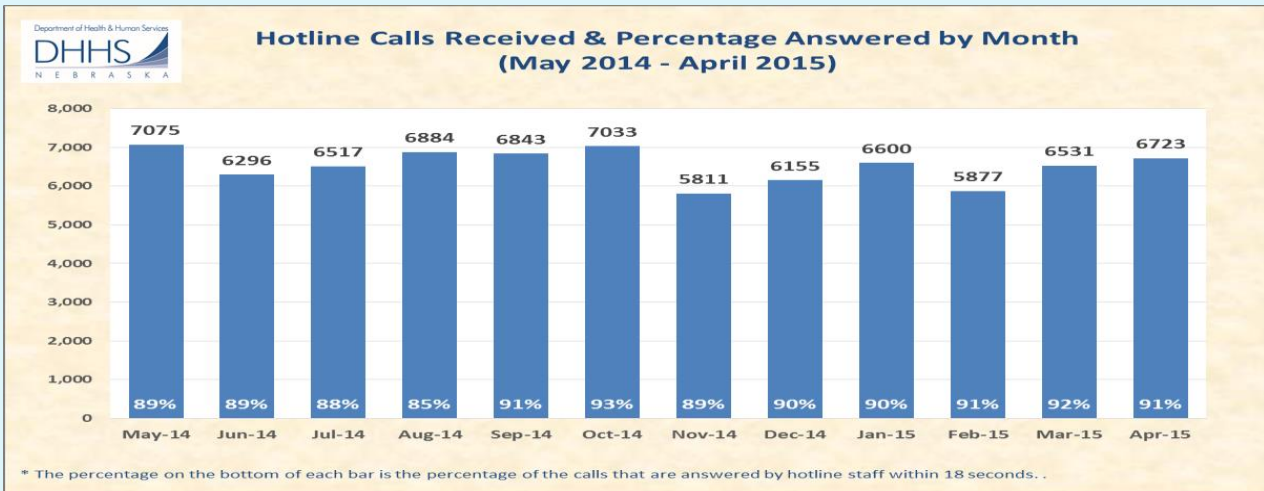

Apr 2015: 91% of all calls to the hotline were answered within 18 seconds. 4% of the calls went to voicemail and were returned within 1 hour.

Barriers:

Action Items:

Data Review Frequency: Monthly

OUTCOME STATEMENT: Children Involved in the Child Protection System are Safe

Definitions:

* Abandoned-call comes in and is not answered due to something in the ACD system which caused a reason for a disconnect or caller hung up.

* Forceout-call comes in and call was sent to worker and worker did not answer -(maybe due to...forgot to log off while faxing)

* Voicemail-calls unanswered that go to voicemail. The goal is to return the call within 1 hour. Case Aides track when the message came in and when the call is returned.

OUTCOME STATEMENT: Children Involved in the Child Protection System are Safe

Intake/Hotline Quality Measures April 2014 - April 2015

Number of Reviews:

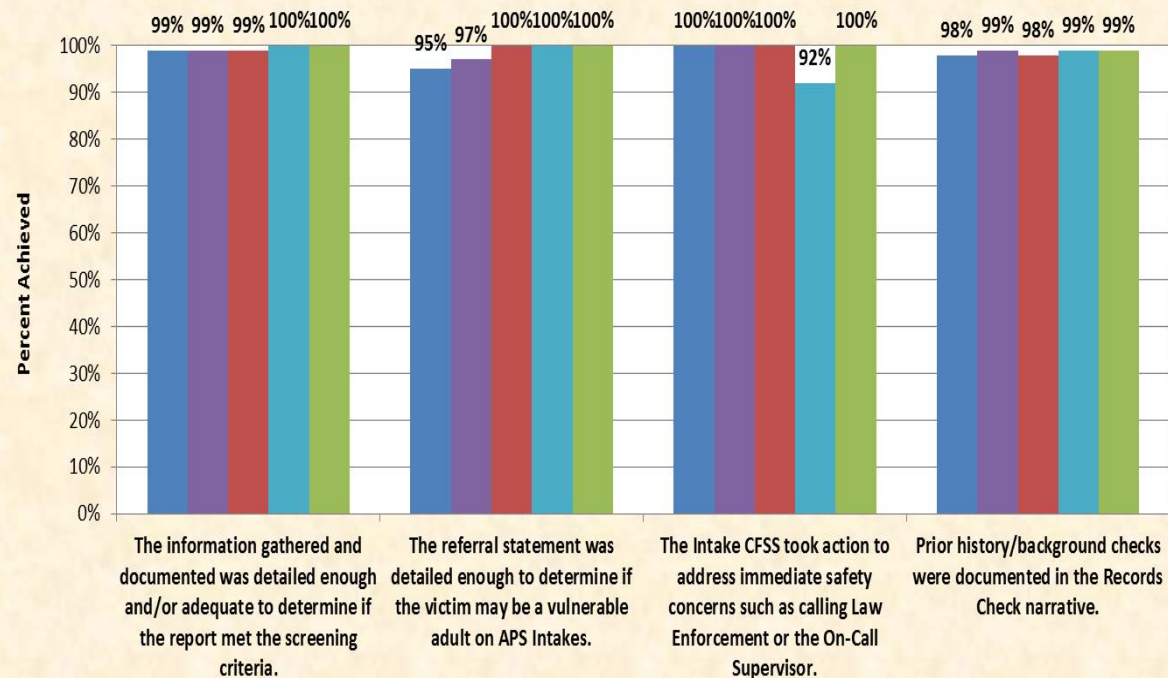

*Apr 2014 = 158

*May 2014=148

*June 2014= 147

*Nov 2014=204

*April 2015= 183

This chart illustrates the percentage achieved for four measures that are part of the Intake QA Review. The Intake QA reviews are completed on a random sample of the total CPS and APS Intakes completed by hotline staff. The Intake QA reviews were implemented by the CQI Unit on July 1st, 2013 and were conducted monthly until June 2014. **The frequency of the reviews was changed to quarterly after June 2014. Questions related to Alternative Response intake decisions will be added in the next quarterly review.**

CPS Intakes Accepted

Strengths/Opportunities:

*Eastern, Northern and Southeast saw an increase in CPS Intakes accepted in 2015 compared to the same period of time (Jan-April) in 2014.

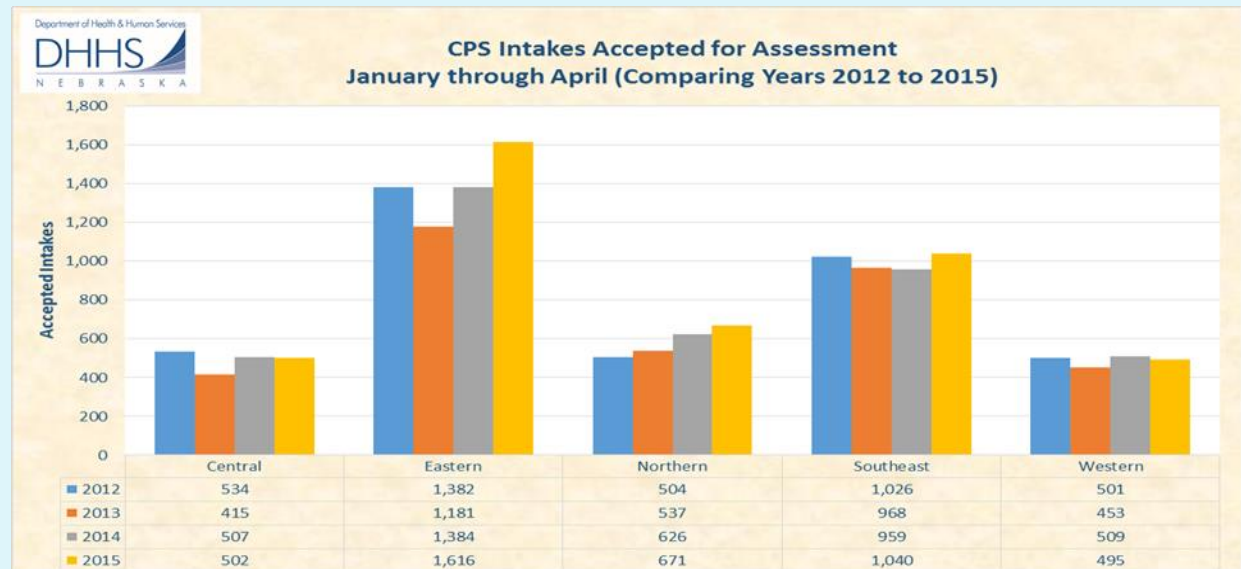

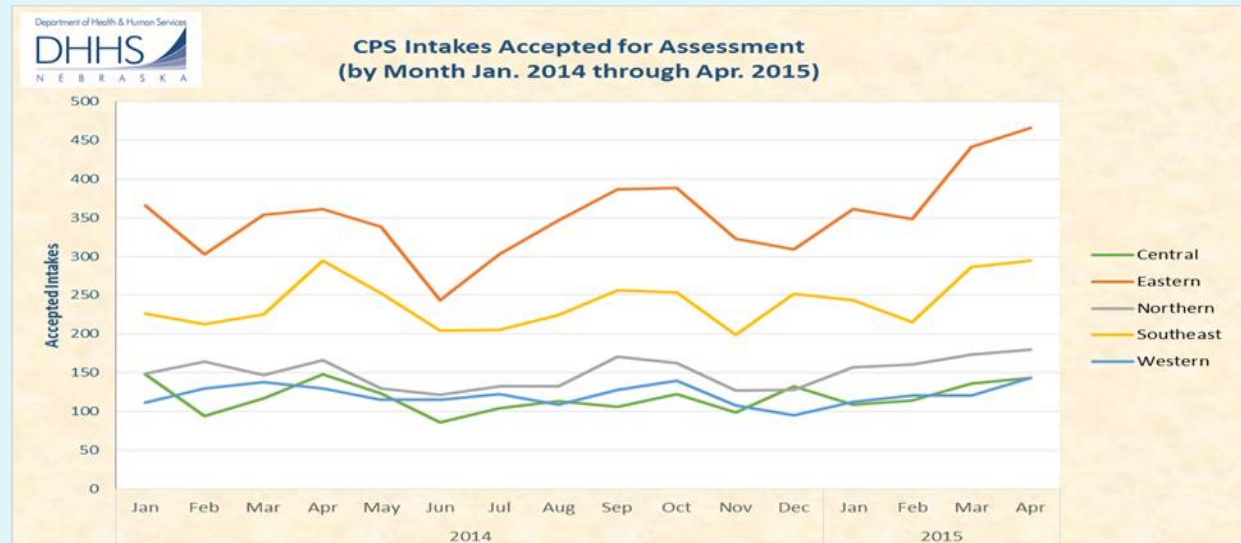

*ESA and NSA have seen stair step increases for the past 3 years.

*ESA saw the most increase between 2014 and 2015 (17%)

OUTCOME STATEMENT: Children Involved in the Child Protection System are Safe

Absence of Maltreatment Recurrence - COMPASS Measures

This is Federal Measure that reports on a rolling 12 month period. Data Source: N-FOCUS COMPASS-State wards. The children included in this report were victims of abuse or neglect during the first six months of the 12 month period. If the child was a victim of a subsequent abuse or neglect incident within 6 months of the first incident of abuse or neglect they appear on this report. Victims are defined as children where the court or DHHS has substantiated the allegations of abuse or neglect.

IA – Investigation Timeframes

Strengths/Opportunities:

May 2015: SESA has the lowest number of IA's not finalized while ESA has the highest number.

On 5/19/15 there were 1,243 Initial Assessments that were not finalized for the entire State for this same period. 67% of those belong ESA and the Tribes.

Barriers:

- ESA & NSA: Staff Vacancies
- Tribes: Time to document assessments and increase knowledge and ability to document SDM Assessments on N-FOCUS.

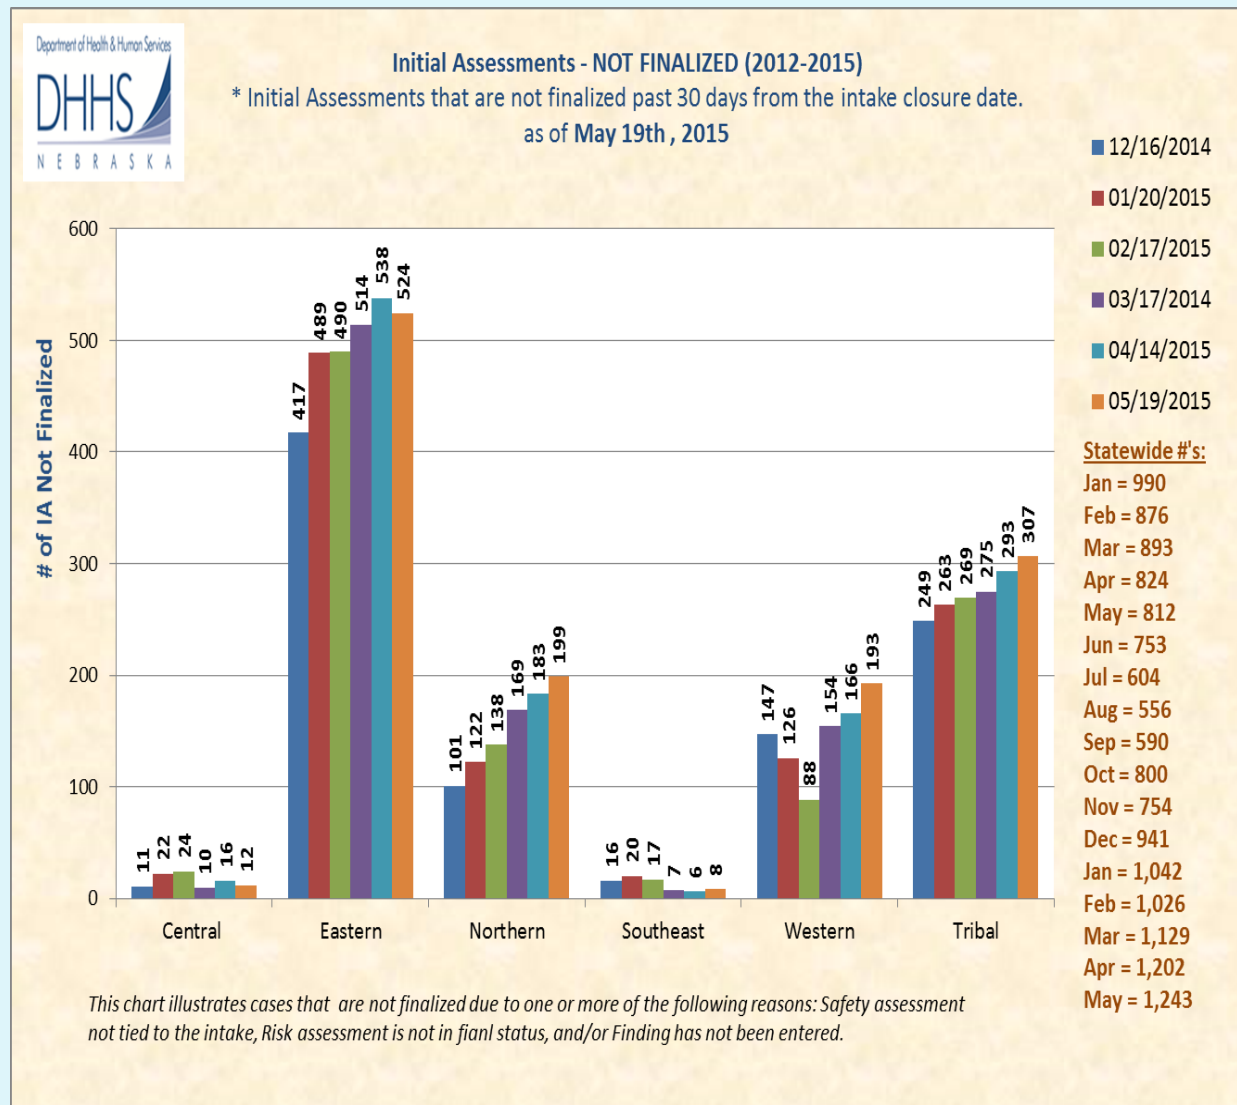

Action Items:

CQI Team Priority:

- Western Service Area

*Refer to Local Service Area Action Plan Forms for detailed Action Items and Strategies for each Service Area.

OUTCOME STATEMENT: Children Involved in the Child Protection System are Safe

The SDM Assessment of Placement Safety and Suitability (APSS) is a tool that is used to assess safety and care concerns for children placed in approved and licensed foster homes. When the intake on the foster home is accepted, the APSS is completed by an IA CFS Specialist, when it is not accepted (e.g. does not meet definition), it is completed by the ongoing CFS Specialist (in ESA, the FPS). *Assessments do not need to be in final status.*

Data is part of CFSR Item #4 (Risk and Safety Management).

APSS Data

Strengths/Opportunities:

May 2015: There were 635 APSS finalized statewide. 27% had a determination of conditionally suitable or unsuitable.

Definitions:

Suitable – Based on the information available (at this time), there are no child concerns in this placement.

Conditionally Suitable – Based on interventions, the child will remain in the household at this time. An intervention plan is required.

Unsuitable – Removal from the household is the only protective intervention possible for one or more children. Without removal, one or more children will likely be in danger of serious harm or in an unsuitable care arrangement

Data is part of CFSR Item #4 (Risk and Safety Management).

Non-Safety Related Admin Concerns - Statewide

This data represents the number of Non-Safety Related Admin Reviews that are reported each month by the QA reviewers. Any of the following concerns are noted while conducting a review:

- Copy and paste with identical narratives or minimal changes
- Minimal blanket statements with no additional information
- No documented face to face contact for 3 months (youth or parent)
- No SDM assessment completed for 6 or more months in a row
- Narratives do not match NFOCUS heading
- Undecipherable narratives
- No documented FTM for 6 or more months in a row
- Overall lack of quality documentation to explain actions or decisions

Goal Statement: Front End – Children will remain home whenever safely possible. Children in out-of-home care will achieve timely permanency

Youth Placed Out of State

Strengths/Opportunities:

May 2015: On May 11th, 2015 – there were 148 youth placed outside of Nebraska.

- 40% - 59 of these youth are placed in congregate care.
- 53% - 78 of these youth are placed in neighboring states (IA, KS, CO, MO and SD).

Total Number of Youth Out of State:

Supervisor Reviews Each Case with the Assigned Case Worker Every 60 Calendar Days

Supervisors will conduct periodic reviews of each case with the assigned caseworker every 60 calendar days and document the review on N-FOCUS. A supervisory review is required for cases that meet the following criteria: 1.) All cases that have a state ward or non-court involved child on the last day of the month, 2.) The child must have been a state ward or non-court involved for the last 60 days. The measure is based on documentation in the Consultation Points - Periodic Review/Evaluation narrative field on N-FOCUS. (Data Source: N-FOCUS Supervisor Review data/Infoview Report).

Case Planning Involvement – CFSR 18

Strengths/Opportunities:

Note: The CFSR review results are based on a review of N-FOCUS documentation and information obtained during phone interviews with the CFSS or FPS.

Barriers:

- Lack of ongoing efforts to locate and/or engage non-custodial parent in case planning (in most cases, this is the child's father).
- Lack of ongoing efforts engage developmentally appropriate children in case planning.
- Lack of good quality documentation during family team meetings and face to face contacts between the worker, children, mother and father. Documentation should clearly state how the parent or youth was engaged in the creation of, ongoing evaluation and discussions regarding progress and needs related to case plan goals.

Action Items:

- Policy team will review and expand non-custodial parent memo to include instructions for engaging the non custodial parent. N-FOCUS changes are planned for July 2015.
- CFSR Champion – Monica Dement & SESA; see CFSR Binder for additional Action Items.

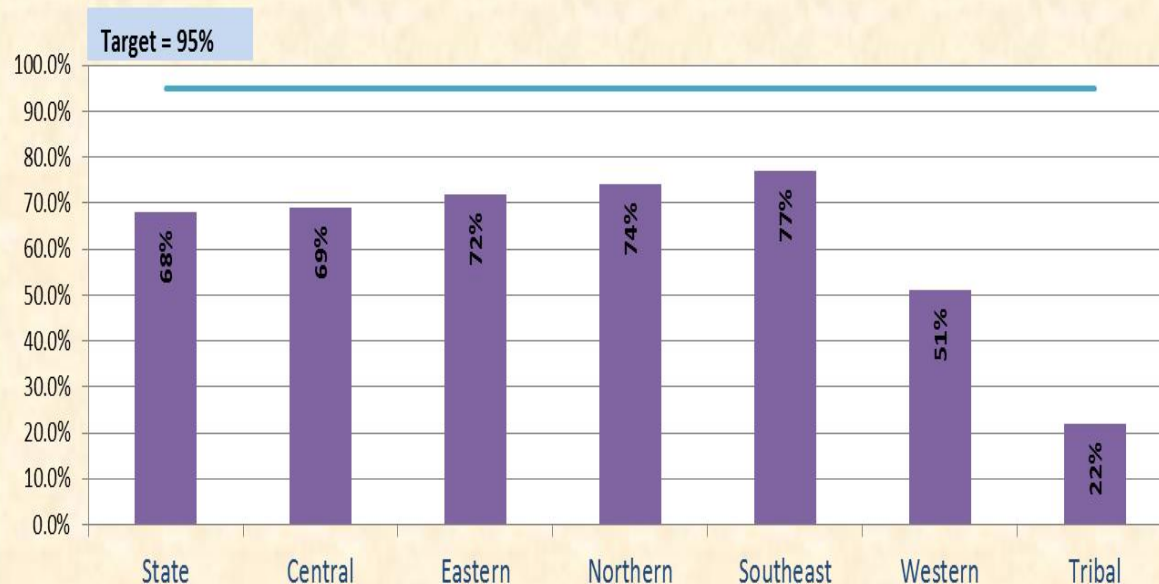

OUTCOME STATEMENT: Children Will Achieve Timely Permanency

CFSR Item 13

Child and Family Involvement in Case Planning

Jan 2014- Jan 2015 (n=249)

Item 13 looks at whether or not the agency made concerted efforts during the period under review to involve the parent (mother and father) and the children during the case planning process. Children and parents have to contribute to the creation of the case plan goals and review them with the agency on an ongoing basis for this item to be rated as a strength.

*Tribal data is based on cases reviewed from the Macy, Santee, and Winnebago tribes. CFSR reviews of Tribal cases began with the July 2014 review.

The round 3 CFSR tool was implemented statewide in February 2015 and the first review covered the period of January 2014 to January 2015. **Item 13 in the Round 3 CFSR tool is comparable to Item 19 in the previous CFSR tool.

Caseworker Contact with Parent CFSR 20

Strengths/Opportunities:

Note: The CFSR review results are based on a review of N-FOCUS documentation and information obtained during phone interviews with the CFSS or FPS.

Barriers:

- Lack of ongoing efforts to visit with the child's non custodial parent (in most cases, this is the child's father).
- Lack of good quality documentation during face to face contacts between the worker and the child's mother and father.

Action Items:

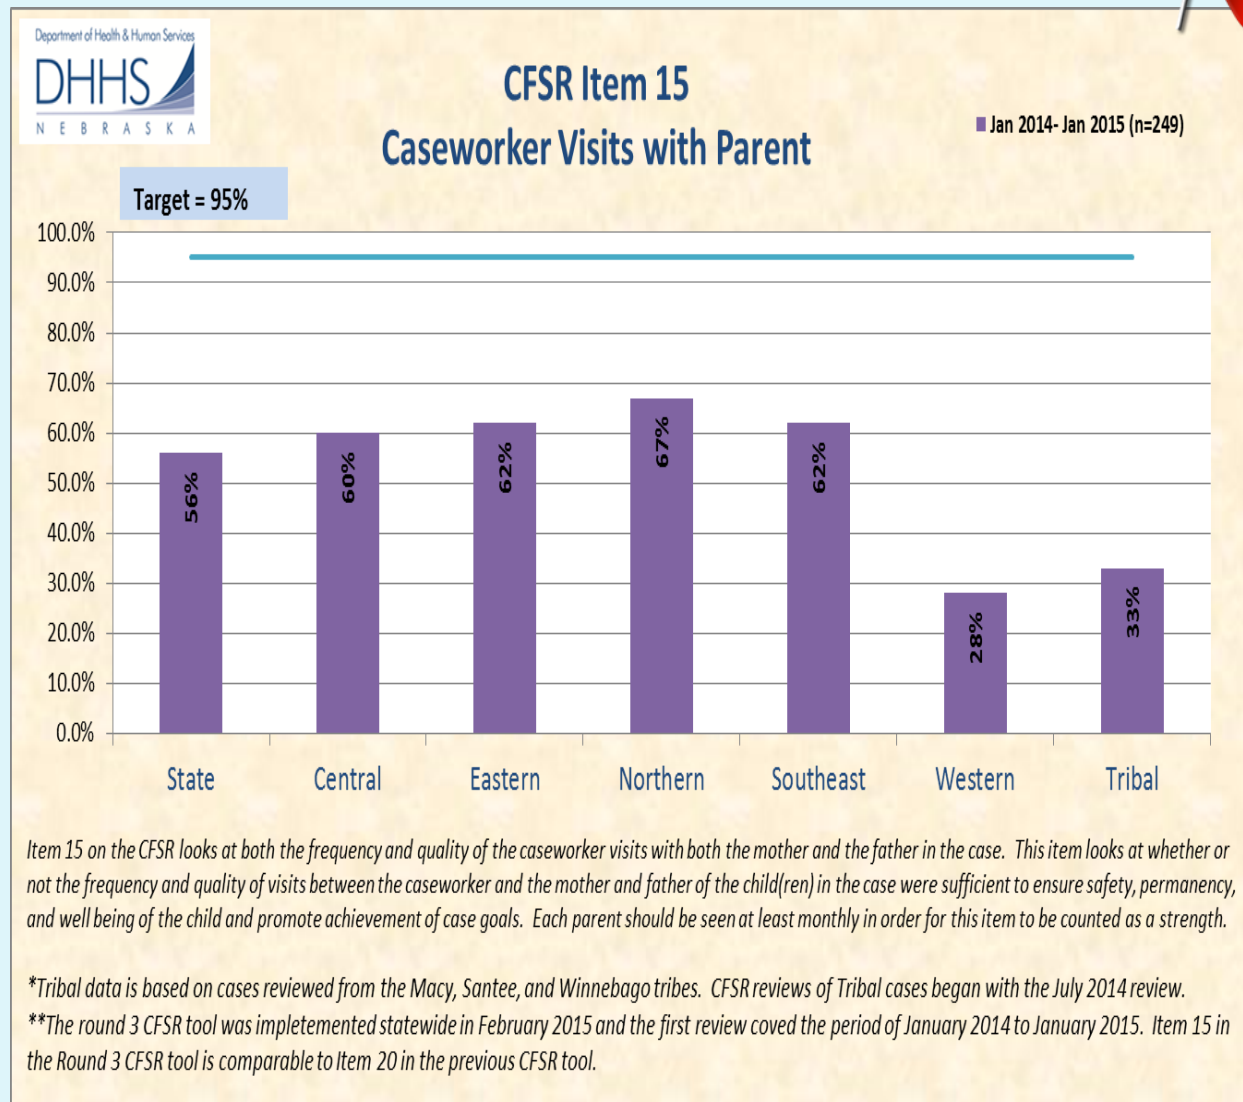

- Policy team will update procedures memo to include clarification regarding parent contact when the child's permanency goal is something other than reunification or family preservation.

Worker Contact with Mother and Father

Strengths/Opportunities:

Statewide-Apr 2015:

Decrease in contact with mothers to 71.4%.
Contact with fathers remained at 41.8%.

** Note: The performance accountability report was modified to require a contact for all parents whose rights are still intact regardless of the child's permanency goal. Prior to this, the report did not require a parent contact for all youth whose permanency goals were adoption, guardianship or independent living.*

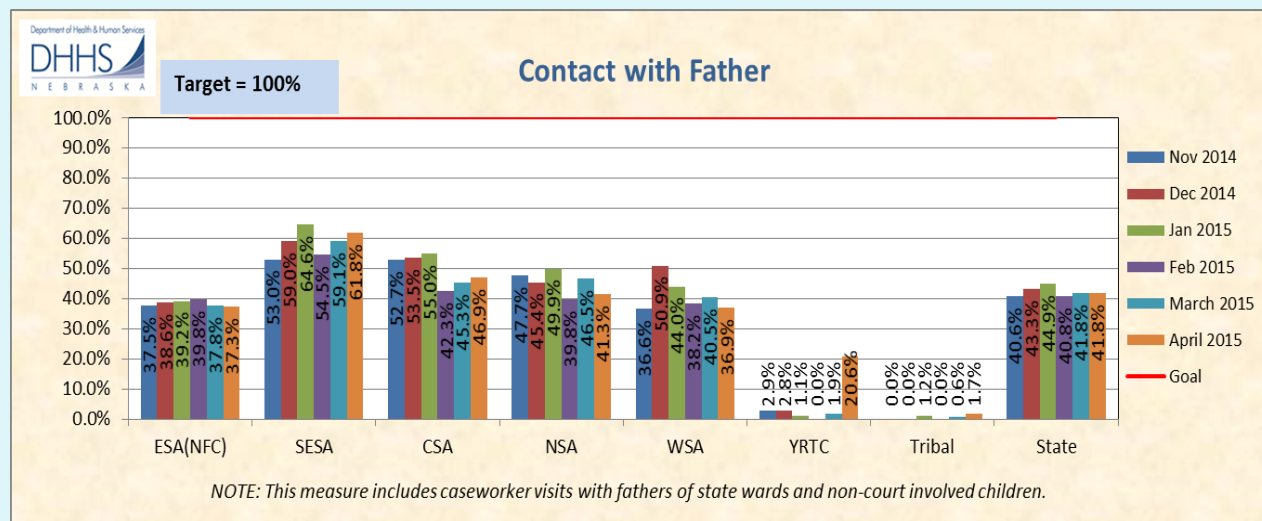

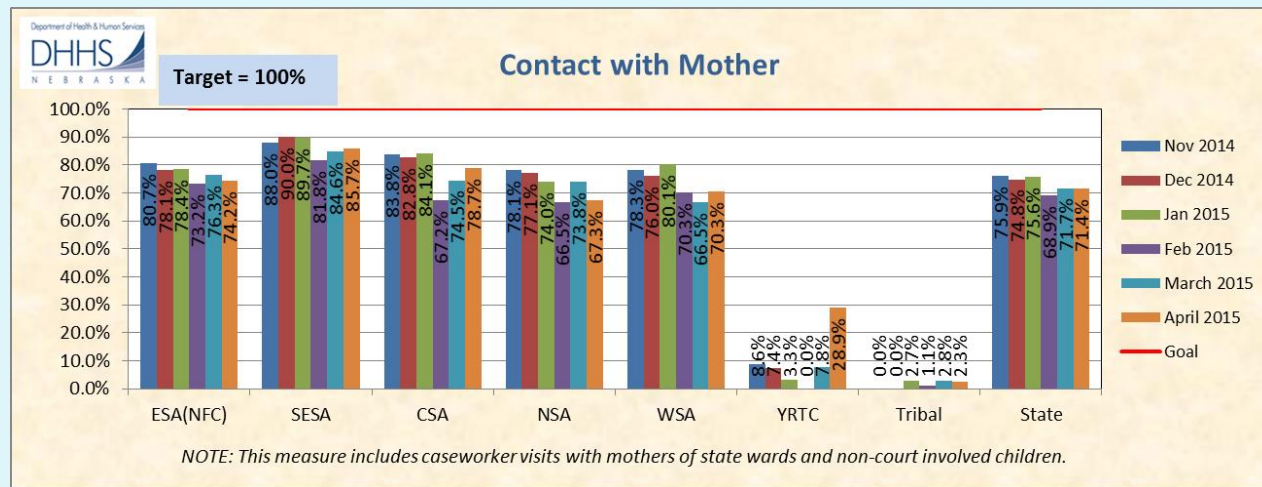

Barriers:

* Identification and engagement of non-custodial parents, especially fathers.

Action Items:

- Lindy Bryceson and Policy Team will develop a quick tip or provide additional guidance to staff to assist with efforts to locate and engage the non-custodial parent, especially when working with a mother who does not want to involve the child's father in non court cases.
- Policy team will research guidance from other states and provide information to CFS staff.
- Doug Beran and team will consult with Policy team and make changes to performance accountability reports and charts as needed.

Federal IM 12-07

- **CQI Structure**
 - Statewide Quality Assurance program with autonomous oversight and dedicated staff
 - Continual training of CQI staff is occurring and QA is collaboratively working with Policy, Training and Administrators to ensure QA's decisions are based upon common policy and to help policy with Administrator's situations
 - Written policies and procedures are being updated and produced where they don't exist
- **Quality Data Collection**
 - Common data collection and measuring process statewide
 - All QA staff are trained and utilize the same QA Tools
 - CFSR reviews are performed by the same staff and reported consistently
 - 2nd level reviews occur on all processes to ensure consistent QA and learning opportunities
- **Case Record Review Data and Process**
 - Quality unit is responsible for all case reviews
 - Case review system has been developed to randomly select cases statewide, provide the QA person with correct review questions and stores results in a non-editable location.
 - Case review system has been modified to allow for testing of specific CFSR questions by service area as needed and generate an email to the worker.
 - Inter-rater reliability testing is ongoing to ensure consistent scoring.
- **Analysis and Dissemination of Quality Data**
 - Statewide case review system has been developed to review all cases selected for review
 - Data is reported statewide and by service area
 - An extensive array of performance reports are created and distributed at monthly CQI meeting
- **Feedback to Stakeholders**
 - Results are used to inform training, policy, stakeholders, community partnerships and others as a means to identify and communicate improvement opportunities and areas of strength
 - Supervisors and field staff understand how results link to daily casework practices; results are used by supervisors and field leadership to assess and improve practice.
 - First stage of CQI communications is monthly Statewide CQI meeting. Second stage of CQI communications is local CQI meetings. At the local level 4-6 areas of improvement have been selected and structured teams created to analyze the results and identify improvement opportunities.

Inter Reliability Program

Strengths/Opportunities:

* The P&S QA team transitioned to completing reliability reviews using the new federal CFSR tool in January 2015.

Barriers:

Action Items:

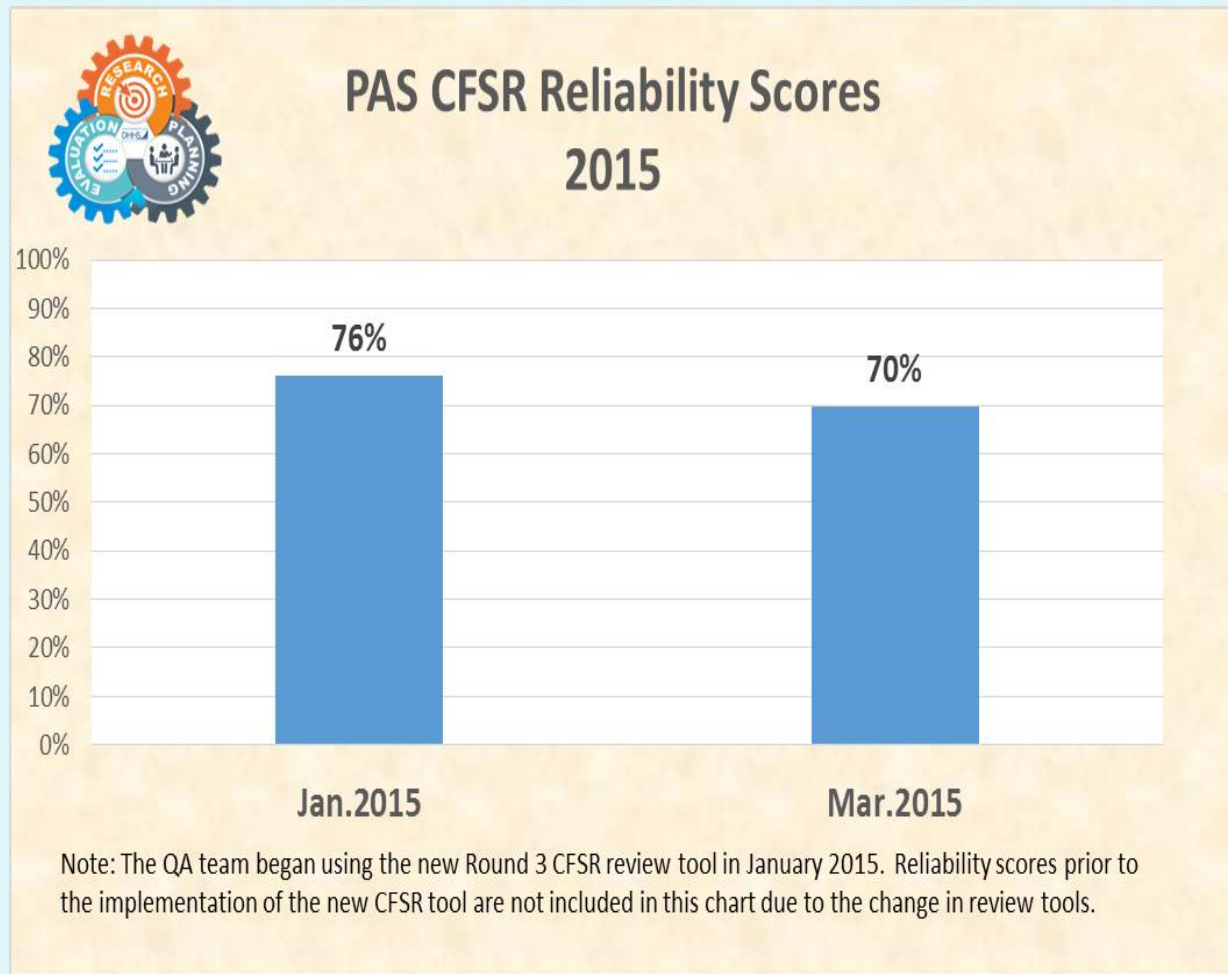

* Additional reviewer training on the following areas have been planned to ensure increase in reviewer proficiency using the new CFSR review tool.

- Critical Thinking and Parent Applicability following the new Round 3 Definitions.
- Reviewer Guide and Working in Teams.

* Additional reliability exercises, on line quizzes and activities to improve reliability are planned each month.

Data Review Frequency: Monthly

Outcome: Improve the Inter Rater Reliability of the Program Accuracy Specialists (PAS)

The Chart Illustrates the 2 most recent PAS CFSR reliability scores. Reliability scores prior to the implementation of the NEW Round 3 CFSR tool are not included due to the change in review tools. The QA team began using the Round 3 CFSR Tool in January 2015.

Information System

Strengths/Opportunities:

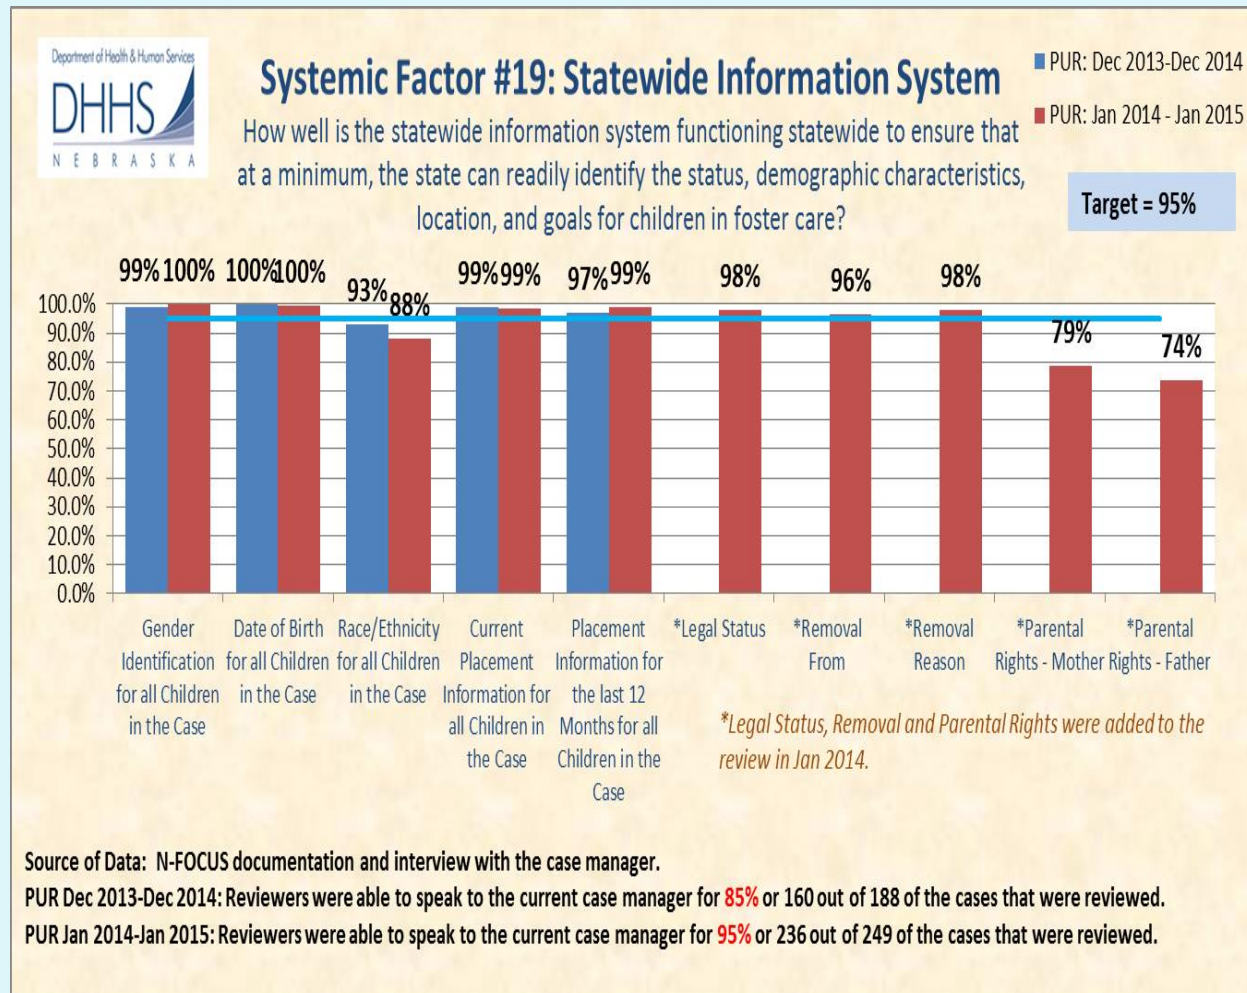

* Reviews indicate that for the most part, data entered in the demographic and placement fields on N-FOCUS is accurate. There were a few instances where the information was not documented accurately per case file information and interview with the CFS Specialist.

Barriers:

Action Items:

*Refer to Local Service Area or Tribal Action Plan Forms for detailed Action Items and Strategies for each Area/Tribe.

Outcome: The statewide information system is functioning as expected and state can readily and accurately identify the status, demographic characteristics, location and goals of the placement for every child who is in foster care?

Data Review Frequency: Every 2 Months
